#### Description

SuperOven Model 1 is a dual-chamber, high-performance oven. It offers the power and versatility of two professional ovens in one sleek column.

The oven excels in delivering exceptional cooking performance, offering a diverse array of cooking methods, including grilling, frying, smoking, dehydrating, steaming, and sous vide. Notably, the inclusion of humidity sensors enhances cooking efficiency, resulting in consistent and rapid cooking processes, up to three times faster than conventional ovens. The digital interface is userfriendly, granting access to a vast library of over 400 automatic cooking programmes that adapt settings based on food quantity, ensuring precision in cooking. The integrated ventilation system features a professional-grade active carbon filter, effectively eliminating odours and vapours. Additionally, the oven incorporates a self-cleaning function that simplifies maintenance, utilising a water-based solution infused with Unox's proprietary eco-friendly detergent. For added convenience, Model 1 includes a sliding accessory drawer that neatly stores professional trays, detergent, and a smoker, enhancing the overall cooking experience.

#### **Unox Intelligent Performance**

- **SENSE.Klean:** estimates the degree of dirt of the oven and suggests the most suitable automatic washing
- ADAPTIVE.Cooking<sup>™</sup>: automatically adjusts the cooking parameters according to the food load to ensure repeatable results
- CLIMALUX<sup>™</sup>: continuous measurement and regulation of the real humidity present in the cooking chamber
- **SMART.Preheating:** automatically sets the temperature and duration of the preheating according to the previous modes of use

#### **Unox Intensive Cooking**

- DRY.Maxi™: quickly removes moisture from the cooking chamber
- STEAM.Maxi<sup>™</sup>: produces saturated steam
- AIR.Maxi™: multi-fan system with reversing
- **PRESSURE.Steam:** increases the steam saturation and temperature

#### Automatic and advanced cooking features

- AUTO.COOK function: automatic pre-set functions
- MULTI.TIME function: manages up to 10 cooking processes at the same time
- SET function: definition of cooking parameters: time/core probe, temperature (30-260°C), humidity/extraction, fan speed/pulsed fans
- My Programs function: library where you can save manually set cooking programs and add recipes from the web-based Cook Like A Chef catalogue.

## **Option 1** - Flush installation with XUC502 steel frame

#### Information

The XUC502 frame is attached directly to the oven, and subsequently, the oven and frame are inserted into the kitchen cabinet.

Prepare a circuit breaker in the electrical panel to be able to disconnect the power in case of need.

Arrange the water tap in an accessible location to be able to shut off the flow in case of need.

The equipment leaves the factory with the hood in the filtering version. If necessary during the installation phase it will be possible to convert the hood from filtering to extraction. See chimney dimensions on the next pages.

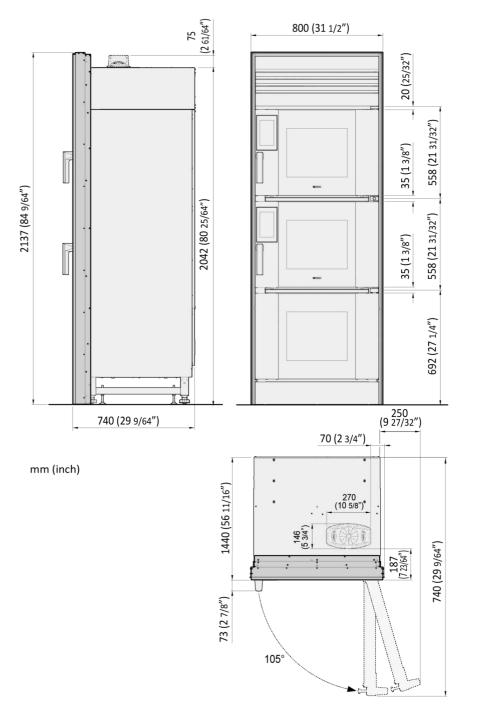

For further information, we invite you to consult the installation manual available on the Unox Casa website at the link below.
